It is with great joy to announce that the Beauchamp Art Galleries have received the Recognition of Business Excellence from the Customers Choice Committee for 2012! Many thanks to all of you for your confidence and support!

The Prism

Three young outstanding artists, Annie Labbé, Patrick Pepin and Stéphanie Rivet will be exhibiting the 15th of September, a collection of works showcasing their use of light and colour. More details will be announced in our up-coming Art Journal.

Kal Gajoum

His newest creations will not arrive until December 2012. A few giclees remain in sizes 30x40 or 36x48 all part of his "Attention New York" series with the flat-iron building as the subject matter. Each of these giclees have been enhanced with dabs of paint, modifications by the artist for an individual effect.

New Artist : Cynthia Coulombe Bégin

Making reference to the magnetism of the feminization of the body and its evolution, the artist has developed her pictorial signature through her interest for stage arts, from the effects of light and movement working with the interior forces experienced by the viewer. Inspired by organic forms and the experiences of mankind, Cynthia's creative approach is a study of body fragments in relation to the energy of the moment.

Paul-Henri DuBerger

Be on hand to witness the outstanding artistic display by internationally acclaimed artist Kal Gajoum, during the 8th annual Gallery Night held in the Old Port District of Québec City. Complete details will be published in our up-coming edition of Art Journal.

New Artist : Joel Prévost

Originally from the Lac St-Jean region of Québec, he has travelled extensively and learned a great deal of Latin American culture, often through diverse dance groups. Upon his return to Canada he began to sculpt in clay. Prévost's works are infused with the sensuality and grace of bodies in dance. We are proud to showcase his work in our galleries.

Good news

This past June, acclaimed artist [René Gagnon](#) was awarded a medal by the National Assembly along with a mention for the recognition of excellence from Sacré-coeur, his hometown. We are proud to present works by Mr. Gagnon that have earned worldwide recognition for their interpretation of the calmness and raw beauty of the Saguenay region. Through Mr. Gagnon's immense talent, his bold use of vibrant colours, the mood and the emotions of this nether region has been interpreted for the local population as well as visitors to the area.

"I love this country, it fills me up and what overflows, is my painting, my expression!"
