Riopelle

Important new acquisition

We are very proud and pleased to announce that the Beauchamp Art Galleries have acquired a truly magnificent box-set of eight etchings by renowned Québec artist Jean-Paul Riopelle. These art works were inspired by a series of fly-fishing lures created by a close friend of his named Paul Mecier. This box-set is extremely rare and these works have never been framed or exposed: Their condition is pristine! You may view these etchings on [our website](#).
